

*AMENDMENTS TO THE CLAIMS*

1. (Currently Amended) A document filing folder ~~with at least two flaps (4, 5, 6)~~  
~~which has comprising:~~

a cover ~~formed by two sheets;~~ including an anterior sheet (1) and a posterior sheet (2),  
~~which are assembled together by a binding (3) joining the anterior and posterior sheets, one~~  
~~(2) of the anterior and posterior sheets having a first flap (4, 5) along at least one of its lower~~  
~~and upper edges and another a second flap (6) along its a lateral edge, these the flaps being be~~  
~~foldable down towards the an interior side of the sheet (2) for storing documents (7) found in~~  
~~the folder, characterized by the fact that the documents consist of being notebook pages (7)~~  
~~securely linked to the binding (3) of the two sheets (1, 2) so as to allow for storing the~~  
~~notebook pages (7) to be stored by folding them down the flaps successively, one on top of~~  
~~the other another, on toward the sheet (2) and, with the notebook pages stored under the flaps~~  
~~(4, 5, 6) folded towards this the sheet.~~

2. (Currently Amended) ~~A The filing folder according to Claim claim 1, characterized~~  
~~by the fact that wherein the sheet (2) with the flaps (4, 5, 6) is the posterior sheet.~~

3. (Currently Amended) ~~A The filing folder according to Claim claim 1 or 2,~~  
~~characterized by the fact that wherein the binding (3) is of the includes a spiral type, enabling~~  
~~the notebook pages (7) to be stored flat over the sheet (2) with the flaps (4, 5, 6).~~

4. (Currently Amended) ~~A The filing folder according to any one of the preceding~~  
~~claims claim 1, characterized by the fact that it can be closed by at least one comprising~~  
~~closing means consisting of including a rubber band (8) which is attached to one of the~~  
~~anterior sheet (1) or and the posterior sheet (2) by rivets (10) or the like, sliding relative to the~~  
~~sheet through eyelets (9), and which can be turned down placed over at least one of the two~~  
~~corners a corner of opposite the other sheet (1), or all in one piece over this and the sheet,~~  
~~parallel to the binding (3).~~

5. (Currently Amended) ~~A The filing folder according to any one of the preceding~~  
~~claims claim 1, characterized by wherein one of the fact that anterior sheet (1) or and the~~  
~~posterior sheet (2) has three flaps (4, 5, 6), respectively along the lower and upper edges, and~~  
~~along the lateral edge of the leaf.~~

6. (New) The filing folder according to claim 2, wherein the binding includes a spiral, enabling the notebook pages to be stored flat over the sheet with the flaps.

7. (New) The filing folder according to claim 2, comprising closing means including a rubber band attached to one of the anterior sheet and the posterior sheet, sliding relative to the sheet through eyelets, and which can be placed over at least one a corner of the other sheet and the sheet, parallel to the binding.

8. (New) The filing folder according to claim 3, comprising closing means including a rubber band attached to one of the anterior sheet and the posterior sheet, sliding relative to the sheet through eyelets, and which can be placed over at least one a corner of the other sheet and the sheet, parallel to the binding.

9. (New) The filing folder according to claim 2, wherein one of the anterior sheet and the posterior sheet has three flaps, respectively along the lower and upper edges, and along the lateral edge.

10. (New) The filing folder according to claim 3, wherein one of the anterior sheet and the posterior sheet has three flaps, respectively along the lower and upper edges, and along the lateral edge.

11. (New) The filing folder according to claim 4, wherein one of the anterior sheet and the posterior sheet has three flaps, respectively along the lower and upper edges, and along the lateral edge.
